Stephanie –

Our consent decree on this action reads “14. No later than ten business days following signature of the notice of any proposed or final rulemaking referenced above, EPA shall submit the notice for review and publication to the Office of the Federal Register. Following such delivery to the Office of the Federal Register, EPA shall not take any step to delay or otherwise interfere with publication of such notice in the Federal Register.”

I know they may have issues with our reg. text or something else and we have leeway to work with them on that as long as the notice gets submitted to them in the ten business days. Thanks
